# WHY COLLABORATE WITH CHIMERTECH?

We bring cutting-edge products that tackle some of the biggest pain points in dairy farming, especially mastitis management and milk quality enhancement.

Here's a quick peek at what we offer:

🩺 Quadmastest: Detect mastitis early with quarter-specific diagnostics that minimize antibiotic use and boost productivity.

🚀 California Mastitis Test (CMT): On-the-spot testing that's fast, easy, and trusted by farmers.

🌿 Mastoveda: A polyherbal Ethno-veterinary formulation that's natural, effective for Subclinical Mastitis treatment, loved by cows and farmers alike.

🧴 logiene - Udder Hygiene: Your go-to solution for reducing bacterial load and promoting udder health.

🛡️ Fine-Kine Teat Sealant: A protective barrier that keeps infections at bay during the dry period.

🦟 Tic tick tic: A polyherbal Ethno-veterinary formulation that's natural, effective for prevention of tick and fleas in livestock

### QUADMATEST

A reagent-free subclinical mastitis detection device for dairy animals . Results in 30 Seconds

### CMT California Mastitis Test

### CALIFORNIA MASTITIS TEST [CMT]

Quick reagent based confirmation test for mastitis

### FINE KINE & IOGIENE

Lactic acid & Iodine based Post-milking teat sealant preventing subclinical & Clinical mastitis

### MOOFOAM

2 in 1 Pre & post-milking udder cleaning foam

### MASTO VEDA

Ethano-veterinary Herbal spray for subclinical mastitis treatment

### TIC - TICK - TIC

PROTECTION FROM TICKS AND FLEAS

### TIC TICK TIC

Polyherbal, Natural Tick-control spray, safe for cattle. Ideal for usage on pregnant cattle also.

# MASTITIS MANAGEMENT PRODUCTS

DETECTION

- Detects Sub Clinical Mastitis at a very early stage (200,000 SC/ml)
- No Recurring cost and No consumables or hidden cost.
- Avoids Milk production loss by 50% to 80%
- Battery operated with 8 hours backup
- RFID based Animal Identification and Traceable data collection.
- Immediate results within 10 Seconds
- One-time investment for years.
- 98.4% Accurate

Available SKUs: *Quadmastest Kit,*  
*Quadmastest Kit with Portable printer*

CHIMERTECH'S

## CALIFORNIA MASTITIS TEST KIT

Reagent For Mastitis Detection in Dairy Animals

DETECTION

- Quick and easy identification of mastitis in cows.
- Cost-effective and reliable solution for mastitis screening
- Accurate detection of subclinical mastitis at an early stage for better treatment outcomes.
- Simple and user-friendly design, requiring minimal training for operation.
- Trusted by veterinarians and dairy farmers worldwide for over 50 years.

Available SKUs: *500mL, 5L, 20L and 35L*  
*500mL, 5L, 20L and 35L with paddle*

TOWARDS ONE - HEALTH SUSTAINABILITY

# FINE KINE

Protect your cattle against Mastitis

PREVENTION

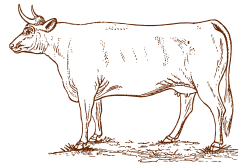

- Lactic acid-based postdip external teat sealant for a natural and gentle barrier against infections.
- Offers up to 30 hours of protection.
- Farms preferring eco-friendly, biodegradable solutions with minimal residue in milk.
- Gentle on skin, making it suitable for farms focusing on animal welfare and natural products.

Available SKUs: **1L, 5L, 20L and 35L**

**1L, 5L, 20L and 35L with Dipcup**

# IOGIENE

PREVENTION

- Iodine-based postdip external teat sealant with strong antimicrobial action to kill pathogens.
- Provides 16 hours of protection.
- Farms requiring maximum disinfection for high pathogen loads or during outbreaks.
- Unique Advantage: Highly effective for large-scale or high-risk operations needing robust pathogen control.

Available SKUs: **1L, 5L, 20L and 35L**

**1L, 5L, 20L and 35L with Dipcup**

# MOO-FOAM

Foam based Udder washing solution for cattle

PREVENTION

- Foam-based pre and postdip with SLS for dual cleaning
- Provides 8 hours of protection, suitable for shorter intervals between milking.
- Farms needing an all-in-one cleaning and sealing solution for pre and post-milking hygiene.
- Economical and time-efficient solution for farms with moderate pathogen concerns.

Available SKUs: **1L, 5L, 20L and 35L**

**1L, 5L, 20L and 35L with Dipcup**

TOWARDS ONE - HEALTH SUSTAINABILITY

# MASTOVEDA

TREATMENT

- A polyherbal ethanoveterinary formulation, utilizing natural herbal ingredients to treat subclinical mastitis.
- Targets inflammation, enhances udder health, and promotes natural immune response for effective healing without synthetic chemicals.
- Farms focusing on herbal-based, residue-free solutions, ensuring milk safety for consumption.
- Completely natural and eco-friendly, reducing the risk of milk contamination or antibiotic resistance, making it ideal for organic dairy farms.

Available SKUs: 200mL, 1L, 5L, 20L and 35L  
200mL, 1L, 5L, 20L and 35L with Spray pump

# TIC-TICK-TIC

TREATMENT

- A polyherbal formulation designed for the treatment of tick infestations, utilizing natural herbal ingredients.
- Mechanism of Action: Effectively repels and eliminates ticks, while soothing skin irritation caused by tick bites.
- Applied externally on animals as part of the tick management routine to reduce tick load and prevent reinfestation.
- Eco-friendly and residue-free, making it safe for milk-producing animals and ensuring no contamination in milk or meat products.

Available SKUs: 200mL, 1L, 5L, 20L and 35L  
200mL, 1L, 5L, 20L and 35L with Spray pump
